EDUCATION

Wilfrid Laurier University

Honours Bachelors Of Science in Computer Science

Expected Graduation: 2027

Waterloo, Ontario

EXPERIENCE

Web Developer

June 2024 – Present

Swiftly Web

Self-Employed

- Developed **customized websites** for small businesses, using **front-end** and **back-end technologies** to enhance their **online visibility**.
- Conducted **client outreach** via social media and provided tailored **UI/UX prototypes** to align with each client's design expectations.
- Managed the full **software development lifecycle**, overseeing architecture, coding, testing, and deployment to deliver functional **web applications**.
- Created dynamic, **data-driven applications** by integrating HTML, CSS, JavaScript, and back-end frameworks, enhancing **user experience**.

Event Data Analyst

July 2024 – August 2024

HackThe6ix

Toronto, ON

- Enhanced** participant registration and resource allocation processes to ensure **smooth operations** for one of **Toronto's largest hackathons**.
- Analyzed workshop **feedback** and **performance metrics**, using data-driven insights to optimize event operations and achieve a **95% satisfaction rate**.
- Redesigned workshop schedules and content based on participant needs, **boosting engagement** and **improving learning outcomes**.
- Collaborated with cross-functional teams to proactively address **logistical challenges**, ensuring a **seamless experience** for all attendees.

Workshop Supervisor

August 2024

HackThe6ix

Toronto, ON

- Conducted workshops on **web development**, delivering structured lessons in **HTML, CSS, JavaScript**, and server programming to build participant skills.
- Developed **outcome-focused** curriculum materials in collaboration with instructors, optimizing content for **participant engagement** and learning.

PROJECTS

Portfolio Website | *React, Tailwind CSS*

- Built a **comprehensive** portfolio website to showcase projects and skills, using **React** for **dynamic components** and **Tailwind CSS** for **responsive styling**.
- Added **animations** and **custom visuals**, such as smooth transitions and **interactive** hover effects, to enhance user engagement and retention, ensuring a modern, responsive, and visually **engaging user experience** across **all devices**.
- Deployed the website on **Netlify**, enabling seamless updates and easy accessibility.

Bitcoin Price Bot | *Node.js, Discord.js, CoinDesk API*

- Developed a **Discord bot** to track **real-time Bitcoin prices** by integrating the **CoinDesk API**, converting values from **USD to CAD** for up-to-date information.
- Enabled dynamic **status updates** to display the **latest** Bitcoin price, ensuring users always have access to **current information**.
- Improved **user interaction** with **rich embeds** and **error handling**, enhancing overall **user experience** and bot reliability.

TECHNICAL SKILLS

Certifications: Front End Development Libraries, JavaScript DSA, Responsive Web Design

Languages: Python, Java, HTML/CSS, JavaScript, C/C++

Developer Tools: VS Code, Android Studio, XCode, Eclipse, MySQL

Frameworks/Technologies: Git, Linux, GitHub, React, NodeJS, Latex
